Call: 9739091119

SIP Trunk: Never Miss A Call Again

Harness the power of a flexible, scalable, and futuristic IP-based voice solution

Tata SIP Trunk Services

Session Initiation Protocol (SIP) trunking is the digital method of making and receiving phone calls and other digital communication over an internet connection. The term trunk in SIP trunking refers to virtual phone lines that you can use to make phone calls over the internet to anyone with a phone number.
